

Accounting for Hotels & Bars

COOKE & FOLEY
— SMALL BUSINESS ADVISORS —
BUILD YOUR BUSINESS. GROW YOUR WEALTH

“Ideally, you need an accountant who understands the peculiarities of the hotel industry and over the years we have mentored numerous hotel owners and managers through the various stages of their business life cycle, from start up right through to sale of the business. We offer hoteliers a full 'menu' of accounting services and recognise the need to analyse your various departments like the bar, bistro, bottle shop, gaming area and TAB.”

You already know that the running of a hotel is like no other business on this planet. Apart from the usual small business compliance issues of GST, BAS, PAYG, stock takes and superannuation you have to contend with heavy regulation including liquor licensing laws, food handling regulations, council permits and in some cases, disgruntled neighbours! If that's not enough, most hoteliers also need to cope with irregular trading hours, erratic and seasonal trade, casual employees, intoxicated patrons and a combination of dry and wet goods.

Thinking of Starting or Buying a Hotel?

We take great pride in our positioning as a business start up specialist and if you are looking to buy or open a hotel, bistro or bar you can benefit from our extensive experience and industry knowledge. There are numerous issues to consider as a publican and over the years we have helped clients with every aspect of the hotel game including site selection, business structure, tax registrations, insurances, the lease and accounting software selection. In addition, we can assist you with your business plan, payroll and HR issues plus help you with finance applications for the construction of a new beer garden or the renovation of the public bar or gaming area.
